

Open Water Diver Certification Dives Checklist

Thank you for choosing Annapolis Scuba for your Open Water Certification Dives. In order to ensure that your training goes as smoothly as possible, we have put together a short checklist of reminders, so you know what you need to have ready for the quarry. If you have any questions, please do not hesitate to call or e-mail the shop.

What you need to bring with you **Equipment**

You must provide all standard dive gear for the Open Water Certification Dives. If you do not have your own gear, you can rent all but personal snorkeling gear from Annapolis Scuba at reduced student rates for the weekend. However, you should consider taking this opportunity to purchase your own gear. Rental rates add up, and after renting a few times, you would have had your own! There are many benefits to owning your own gear – proper fit, comfort, features and familiarity—and confidence that your gear will perform as designed since you know it has been looked after and serviced regularly.

- Mask
- Open-heel fins w/ neoprene boots
- Snorkel
- BCD
- Regulator with gauges or computer
- 7mm wetsuit, with hood & gloves
- Tank and weights

Other
